

Play value

The artist took hold of the subjects sheep and flock on different levels and abstracted it with flair. The thick, shaggy wool, the softly shaped ears and the gawky feet of a sheep are transposed as well as the patient and humble appearance which a sheep has while grazing. Even if the movement does not immediately bring to mind an association with sheep, the fine, wobbling of the body reflects the undulations of a walking flock. When standing in a group, these art objects evoke associations with flocks of sheep, unity in variety, and even - due to successful abstraction - one's relationship with nature. The sheep is equally suitable for an artistically designed play point in urban environments. In leisure areas, the animals can be used as amusing, alternative seats for young and old, which promote relaxation and ease by their movement. Children's spaces get an unmistakable identity from a flock of sheep.

Fundamental characteristics

- Art Play
- incentive for playing: friendly appearance, animal
- movement: climbing, sitting, little wobble effect

Suitable

- for children from 3 years
- for public playgrounds
playgrounds situated near houses
nurseries
children's homes
therapy institutions for children
pedestrian zones, parks
market squares

Technical information

Body of solid poplar wood, worked on by hand, boiler pressure impregnated according to DIN 68800-3, use class 4

Corocord®rope

special ropes of "Hercules type"
ears of Corocord® rope of the special "Hercules type", abrasion protected through heating of the six steel strands and melting the polyester sleeve onto them, standard colour natural

bearing: rubber-metal connection only intended for gentle movement

Dimensions

(every animal is unique, the indications of the measurements may vary)

Order No. 4.24270 Wobbly Sheep

length	0.70 m
height	0.70 m
width	0.40 m
weight	125 kg

Order No. 4.24273 Wild Boar

length	0.90 m
height	0.65 m
width	0.50 m
weight	140 kg

Components

1 animal with wobbling mechanism, in various sizes, with ground anchor of steel

Installation information

Surfacing requirements corresponding to a fall height of ≤ 1.00 m (please refer to price list for more detailed information)

Foundations
excavation depth for ground anchor 85 x 70 x 50 cm

Attention:

Exact measurements may vary, for all installation dimensions refer to current installation instructions.

Technical changes reserved.

For more detailed explanation of the quality characteristics see price list.
