

### Play value

Due to its low height and its minimum inclination, the Rotating Disc allows turning from relaxed to wild. The effects of centrifugal force can be experienced, balancing in combination with running can be developed. There is much fun especially together with others, for those who get turned around as well as for those who set the disc in motion. It is very relaxing to turn around gently while having a chat.

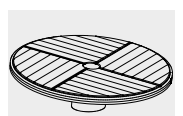

### Fundamental characteristics

- wooden surface for pleasant tactile experience
- careful selection of materials and high-quality finish
- incentive for playing: large disc
- movement: physical power, turning

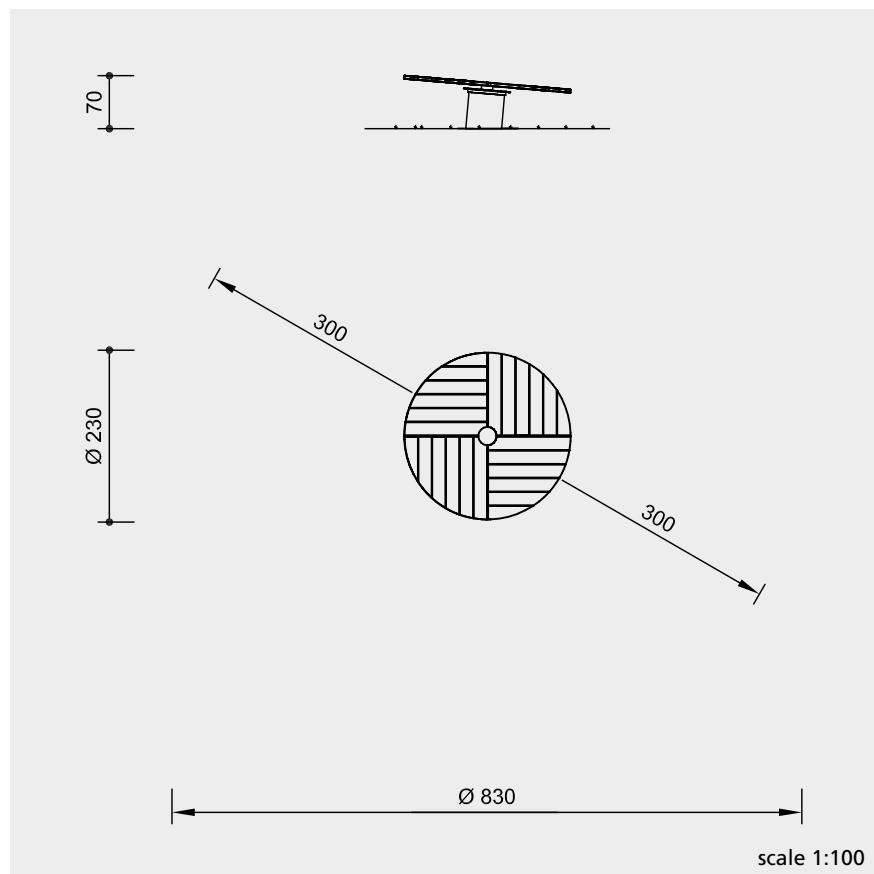

### Suitable

- for children from 6 years and young people
- for public playgrounds
- leisure parks
- outdoor swimming pools

### Rotating Disc

7.26000

Safety check according to EN 1176

### Components

- 1 disc
- 1 rotating mechanism
- 1 foundation frame

### Installation information

Surfacing requirements  
corresponding to a fall height of  $\leq 1.00$  m  
(please refer to price list for more  
detailed information)

Foundations  
1 item 80 x 80 x 75 cm  
excavation depth 80 cm

**Attention:**  
**Exact measurements may vary, for**  
**all installation dimensions refer to**  
**current installation instructions.**  
Technical changes reserved.

### Technical information

rotating floor of 35 mm planks of  
non-impregnated mountain larch

expanding and shrinking of the planks  
is reduced by relief cuts applied to the  
underside

#### core-free

core-free, by that formation of cracks  
can be reduced

#### ball bearing

mechanism with double ball-bearings,  
lacquered, water and sand proof,  
low-maintenance

carousel structure of stainless steel,  
glass bead blasted

sturdy, welded substructure

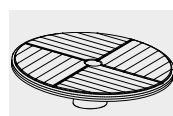

foundation frame of steel

### Dimensions

(small deviations possible)

height	0.70 m
diameter	2.30 m
weight	315 kg
