

Function and Play value

Every culture has its melodies which stay alive by frequent repetition. The melodic fence gives you this opportunity to play these melodies as a chorus or as a canon or even backwards if you want to. The fence has been tuned with little familiar melodies such as "Frère Jacques". Other melodies within an octave tone range are possible. The melodic fence consists of handrail, frame and sound tubes. Running a hammer or a stick over the metal rods of the melodic fence creates the tune of a song.

In non-public areas the suspension can be done with cables instead of a screw. The length of the fence can be varied depending on the melody or the required space. With changes of more than 10 % please request a price that will differ from the list price.

Suitable

- for public places
- to support sensory perception for senior citizens and people with special needs
- early musical education

Acoustic effect	soft
Vandalism	not vulnerable
Supervision	not necessary
Explanation Board	included
Installation	indoors and outdoors
Safety check (EN 1176)	not necessary
Installation in concrete	possible
