

Play value

This special instrument invites people to make music by playing the keys. It is available in two versions: The diatonic version is better suited to playing known melodies, while the pentatonic version is a motivation for free improvisation. This attractive play equipment is an appealing enhancement for any park and can serve as the exciting central feature of a play space.

Fundamental characteristics

- unique and original
- incentive for playing: curiosity, percussion keys, sound elements
- experiencing sound, making music

Suitable

- for all age groups
- for leisure areas
- pedestrian areas
- for public places
- play areas for people with special needs
