

Play value

Without any combination equipment, the Platform Huts are first and foremost a creative offer for family and other role-playing games that take place on one or two levels. Complemented by a roof, the Platform Hut offers two protected rooms in which children will feel sheltered. The roof is suitable for attaching a climbing rope. The Platform Hut may also be combined with a slide, a sand play centre or other attractive equipment in order to create a small but versatile "playground" in a small space.

Fundamental characteristics

- child-oriented dimensions according to ergonomic knowledge
- one or two play levels
- natural wooden surface which appeals to the senses
- flexible base elements with numerous combination possibilities
- incentive for playing: role-playing games in cosy little rooms
- movement: climbing

Suitable

- for children from 3 years of age
- for play spaces situated near houses
- kindergartens
- after-school care clubs
- public playgrounds
