

Play value

Our Elephant with Trunk Slide can be seen from a long way away. The large animal is an impressive example of play space design. Small and big children immediately recognise the elephant and want to explore the life within. A large play area is situated in the body, which invites them to hide away and engage in role-playing games. The slide in the trunk allows a quick getaway to the ground.

Fundamental characteristics

- impressive design statement
- very special appeal
- eye-catcher of a play area
- attractive meeting point
- large play area underneath the platform
- incentive for playing: curiosity, role-playing games, experiencing height, hiding
- exercise activity: climbing up and around, observing, sliding

Suitable

- for children from 6 years and young people
- for public playgrounds
- parks
- exhibitions
- leisure parks
