

Play value

Our playscapes have been designed especially for day-care centres. They consist of individual modules which can be freely varied and combined to suit individual needs. We create exciting and diverse playscapes from platforms and different wooden boxes that can be filled with water, plants, play sand or balls. The system is complemented by sun sails which can be mounted in a number of ways.

anchoring to the ground

all parts used for anchoring to the ground made of hot-dip galvanised steel

sail made of weatherproof tarpaulin (PVC)

Dimensions

(small deviations possible)

height	0.50 m
with sail	2.10 m
length	1.60 m
width	1.60 m
weight	
sand box	110 kg
chill-out box	135 kg

Please refer to the price list for a more detailed explanation of the quality characteristics.

safety check according to EN 1176

Components

1 box each
with steel feet for fixation with bolts

sail not included in delivery
refer to **Order No. 5.54060**

Installation information

Surfacing requirements
corresponding to a fall height of ≤ 0.60 m
(please refer to price list for more
detailed information)

Foundations
no foundations required

Attention:
**Exact measurements may vary; for
all installation dimensions refer to
current assembly instructions.**

Technical changes reserved.
