

Play value

Climbing poles of equal length are centrally arranged, offering children and adolescents competitive play opportunities. The reward for climbing is the ringing of a bell at the top when it is tapped. Boys in particular, like measuring their strengths and skills and for this reason the Bell Climbing Poles are particularly suited to the teenager's area.

Fundamental characteristics

- unique and original
- damped anchorage, which enables the free-standing poles to swing, is included in delivery
- incentive for playing: tapping the bell
- exercise activity: climbing

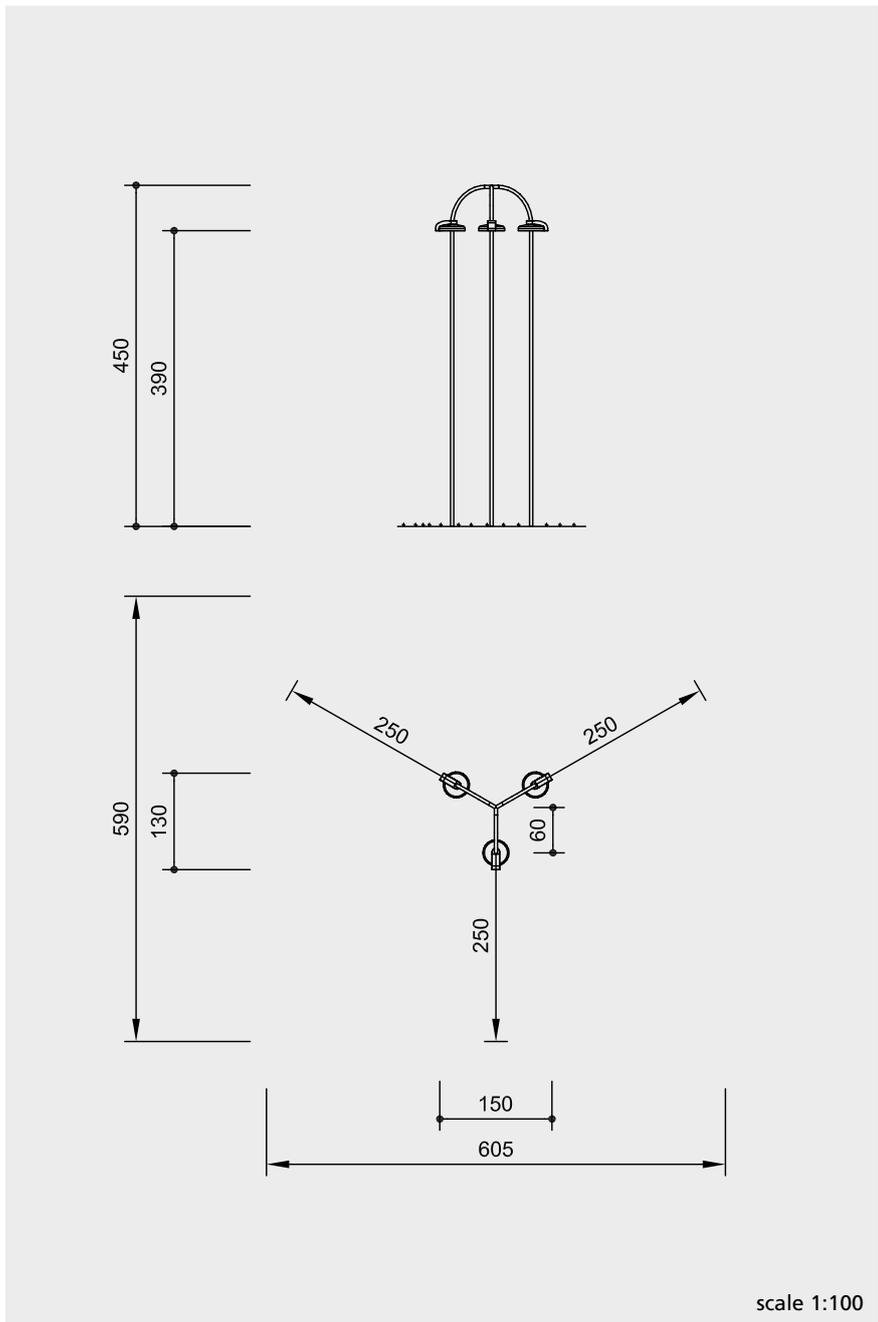

Suitable

- for children from 6 years and young people
- for public playgrounds
school playgrounds
outdoor swimming pools
parks
youth centres

Bell Climbing Poles

safety check according to EN 1176

Technical information

climbing poles of stainless steel, reinforced against kinking in the lower half

colourfully painted sound elements, relatively soft percussion with plastic element, bell-like sound

ground anchor
all parts used for anchoring to the ground made of stainless steel

Dimensions

(small deviations possible)

height	4.50 m
height of bells	3.90 m
length	1.50 m
width	1.30 m
wall thickness of tubes	42 x 3.2 mm
weight	240 kg

For more detailed explanation of the quality characteristics see price list.

Components

3 climbing poles, welded together, with bells and rubber-damped anchorage construction

Installation information

Surfacing requirements corresponding to a fall height of ≤ 3.00 m (please refer to price list for more detailed information)

Foundations
1 item Ø 2.20 m x 1.00 m
excavation depth 140 cm

Attention:
Exact measurements may vary; for all installation dimensions refer to current assembly instructions.

Technical changes reserved.
