

**Function and Play value**

To see oneself in a mirror, to discover changes, to experience a mirror world. To exert oneself while turning the rotunda and to be rewarded with the sound of the bell. The Mirror Rotunda represents a concentrated address of the senses and is interesting for grown-ups as well as for children. In pedestrian zones, it is a welcome change to the commercial activities. It gives a particular accent to large places or squares, particularly when several rotundas are grouped together. In front of public buildings, especially of modern architecture, it emphasises through play the significance of the location due to its impressive appearance.

The Mirror Rotunda is available with or without sound effect.

**Fundamental characteristics**

- unique and original
- surprising reflections, address of the senses
- incentive for playing: reflection, coloured head
- movement: setting the rotunda in motion, turning oneself

**Suitable**

- for people from 4 years
- for pedestrian zones
- public places
- entrance halls of public buildings
- alongside paths

**Mirror Rotunda**

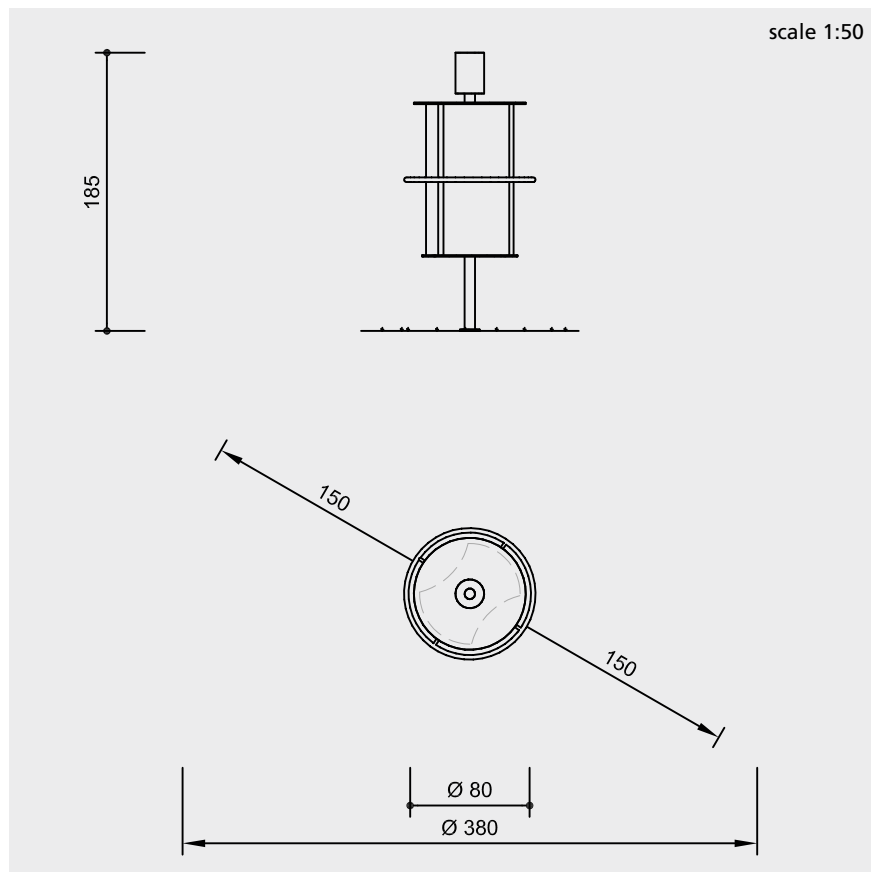

Acoustic effect	medium
Vandalism	not vulnerable

Design B. Poth-Lengefeld

**9.10020**

Safety check according to EN 1176

**Components**

- 1 Mirror Rotunda
- 1 tube to be set into concrete

**Installation information**

Surfacing requirements corresponding to a fall height of  $\leq 0,60$  m (please refer to price list for more detailed information)

Foundations  
1 item 60 x 60 x 60 cm  
excavation depth 80 cm

**Attention:**  
**Exact measurements may vary, for all installation dimensions refer to current installation instructions.**  
Technical changes reserved.

**Technical information**

equipment of stainless steel, glass bead blasted, with built-in concave and convex mirrors of stainless metal sheeting

**brass bush**

for all to and fro movements we use bush bearings which allow for self-lubrication while in use and which can be easily exchanged in case of need

**ground anchor**

all parts used for anchoring to the ground made of hot-dip galvanised steel

sound elements of groups are tuned and painted in different colours

**Dimensions**

(small deviations possible)

height	1.85 m
diameter	0.80 m
weight	200 kg

For more detailed explanation of the quality characteristics see price list.
